👤 Profile

Dedicated to full-stack development, I've refined my critical thinking skills to an exceptional level. My track record of consistently delivering top-notch work underscores my commitment to innovation and my unwavering drive to surpass expectations. Eager to tackle new challenges and contribute my skills, I'm prepared to advance my career to the next level.

🏢 Professional Experience

Trainee Software Engineer

OctDaily

Sep 2023 – present | Florida, United States

My Role as a Trainee Software Engineer includes:

- Support the development team in creating a smooth user interface with Angular.
- Utilize C# and .NET for constructing a seamless backend.
- Employ MySQL Server for database management.
- Address and resolve any bugs that arise throughout the Software Development Life Cycle (SDLC).
- Collaborate with the team through Jira software for coordination.
- Utilize Azure DevOps for version control.

Self-Employed

2022 – present | Karachi, Pakistan

Burrakh Group (July 2023 - present)

- Responsible for creating a full-stack Next.js website for a UAE client for his upcoming company, Burrakh Group.
- Designed an excellent user interface to enhance user experience.
- Developed a seamless admin portal for handling website content management.
- Designed and integrated forms for various inquiries, ensuring smooth data flow from backend to frontend.

📁 Projects

Burrakh Group Website

- Developed a full-stack Next.js website for Burrakh Group, an upcoming company led by UAE client, Sheikh Muhammad Noman.

NED Admission Cell. [🔗](#)

- Developed a MERN-based website to assist prospective students throughout the NED admission process.

FootyWear [🔗](#)

- Developed and launched a secure e-commerce store with Next.js and RESTful APIs

Genovative Solutions Website [🔗](#)

- Developed a website for our startup that offers web services to clients both locally and internationally.
